Tenants in the center will include Polo Ralph Lauren, Abercrombie & Fitch, Hollister, Gap, Banana Republic, Old Navy, Liz Claiborne, Nike, Adidas, Tommy Hilfiger and many others. The Wisconsin Dells property, which was developed and is managed and leased by Tanger for a fee, is owned through a joint venture of which Tanger owns a 50% interest.

The Pittsburgh center will be wholly owned by Tanger. The company expects to begin demolition of the building located at the Deer Park site before the end of 2006 and currently expects this center will also be delivered in the first quarter of 2008. The Deer Park property is owned through a joint venture of which Tanger and two venture partners each own a one-third interest.

- (a) FFO is a non-GAAP financial measure. The most directly comparable GAAP measure is net income (loss), to which it is reconciled. We believe that for a clear understanding of our operating results, FFO should be considered along with net income as presented elsewhere in this report. FFO is presented because it is a widely accepted financial indicator used by certain investors and analysts to analyze and compare one equity REIT with another on the basis of operating performance. FFO is generally defined as net income (loss), computed in accordance with generally accepted accounting principles, before extraordinary items and gains (losses) on sale or disposal of depreciable operating properties, plus depreciation and amortization uniquely significant to real estate and after adjustments for unconsolidated partnerships and joint ventures. We caution that the calculation of FFO may vary from entity to entity and as such the presentation of FFO by us may not be comparable to other similarly titled measures of other reporting companies. FFO does not represent net income or cash flow from operations as defined by accounting principles generally accepted in the United States of America and should not be considered an alternative to net income as an indication of operating performance or to cash flows from operations as a measure of liquidity. FFO is not necessarily indicative of cash flows available to fund dividends to shareholders and other cash needs.
- (b) The convertible operating partnership units (minority interest in operating partnership) are not dilutive on earnings per share computed in accordance with generally accepted accounting principles.
- (c) Includes the Charter Oak portfolio which we originally acquired through a joint venture in 2003. At that time we had a 33.3% ownership interest in the joint venture. In November 2005, we acquired the remaining 66.7% interest in the joint venture, thus making the portfolio wholly-owned from that date forward. However, these properties have been consolidated for financial reporting purposes under the accounting guidance of FIN 46R since the initial formation of the joint venture in December 2003.
- (d) Excludes Myrtle Beach, South Carolina, Hwy 18 property which is operated by us through a 50% ownership joint venture and three centers for which we only have management responsibilities.
