The “Daily VWAP” for any trading day means the per share volume-weighted average price as displayed under the heading “Bloomberg VWAP” on Bloomberg page “SKT.N <equity> AQR” (or its equivalent successor if such page is not available) in respect of the period from scheduled open of trading until the scheduled close of trading of the primary trading session on such trading day (or if such volume-weighted average price is unavailable, the market value of one Company Common Share on such trading day determined, using a volume-weighted average method, by a nationally recognized independent investment banking firm retained for this purpose by us). The Daily VWAP will be determined without regard to after hours trading or any other trading outside of the regular trading session trading hours.

The “Averaging Period” means the eight trading days beginning on Friday, April 24, 2009 and ending on Tuesday, May 5, 2009.

The “Collared Average VWAP” means the arithmetic average of the Daily VWAPs on each day of the Averaging Period; provided, however, that (1) if such arithmetic average is less than \$24.00, or the Minimum VWAP, then the Collared Average VWAP will be deemed to be the Minimum VWAP, and (2) if such arithmetic average is greater than \$40.00, or the Maximum VWAP, then the Collared Average VWAP will be deemed to be the Maximum VWAP.

This posting will be updated daily after 5:00 p.m., New York City time, on each trading day during the Averaging Period.
